1. ZIPPER's comments on the first page of the attachment are amply substantiated by the facts, the most important of which is simply that we and ZIPPER have failed to come up with anything on SANITZER in the almost two years that we have been working on the case. ZIPPER feels, and we are forced to agree, that the SANITZER case has been and is an enemy confusion-deception maneuver with the following aims:

- a. To direct pro-Eastern agitation toward the former associates of SANTTZER.
 - b. To diver and occupy Western intelligence.
- c. To arouse Western distrust of SANITZER's former associates and thus either neutralize them or make them more accessible to Eastern approaches.
- 2. The measure of truth in the above may be taken by considering that no one (1) knows where SANITIZER is, (2) knows for which enemy service he works, and (3) knows, indeed, if SANITZER is still living. In a case of this kind, a dead body is such easier to work with than a live one and indications seem to point to this conclusion.
- 3. From ZIPPER's point of view, the case as an active one must be considered closed. Doubtless they will continue to receive information on a passive basis and will undoubtedly pass it on to us if it is at all promising. Please indicate if any-

one, especially Vienna, is still interested, and we will arrange to forward any material we receive. 4. For Vienna: We would be very interested in any recent developments which would either strengthen or weaken ZIPPER's argument. In particular, we would like to know if any recent information on Subject has been received which definitely cannot be attributed to Adolf SIAVIK and/or the Nationale Liga.
